Press Release

Time Design

Hoshino Resorts

Time Design's Global Dynamic Package Solution is a booking engine which combines availability and prices of both accommodations and transportation (such as international airline tickets) and will now allow global travelers coming to Bali, Indonesia to book both rooms and flights on HOSHINOYA Bali's official website.

Time Design had capability of providing Japan domestic flights, Japan to Global flights, and Global to Japan airline flights at their Dynamic Package Solution. Now Time Design have started to provide Global origin to Global destination flights.

Guests who visit HOSHINOYA Bali's official website are able to choose flights from a wide variety of airline carriers (including Low Cost Carriers (LCCs)), by specifying the airline name, alliance, prices, departure and arrival times, flights routes, as well as other options and bundle with accommodation. The payment currency(*2) can be chosen by the guests.

"HOSHINOYA Bali" is a luxury resort in Ubud, Indonesia, opened on January 20th, 2017 by Hoshino Resorts, a company running resorts/Japanese inns (ryokans) inside and outside of Japan. This is the first "HOSHINOYA" that has opened outside of Japan, welcoming many guests both from within the country and abroad.

This time around, "HOSHINOYA Bali", by using Global Dynamic Package Solution, has begun a system that allows guests from all over the globe to book plane tickets and rooms together as a set. The link for HOSHINOYA Bali's Global Dynamic Package Solution is within the resort's official English website.

Time Design is going to provide Dynamic Package Solution to Global Hotels by using the connection with CRS(*3) and Channel Manager.

(*1) Dynamic Package is a travel product which combines availability and prices of both accommodations and transportation (such as international airline tickets).

(*2) Currency is able to choose from JPY/USD/TWD/HKD/SGD/AUD but able to wider the option from Hotel's needs.

(*3) CRS is Central Reservation System used by hotels.
